8:52 (Pt. 3)	ITEM #9B: REZONING
	Council will discuss the recommendation of the Planning & Zoning Commission for the rezoning of 11 parcels
	on Hampshire Avenue. No action will be taken at this meeting.
	Mayor Barber said that Council would like to send this matter back to Planning & Zoning with the request that they consider amending the R-2 zone.
	The Town Manager was directed to communicate to the Planning & Zoning Commission that Council requests that P&Z begin the process of amending the R-2 zone so that it would include only single-family homes and duplexes, and that this be done expeditiously.
8:56 (4:00)	ITEM #9C: PARKING KIOSKS
	Council will review the discussions conducted at meetings of the parking kiosk work group and may direct staff regarding the next step in this process.
	Councilmember Worth recommended that Council put off discussing this until further information is obtained. She had learned that day that ADOT may not allow us to charge for parking in their right-ofway on 89A. She noted that Sedona actually purchased the parking areas adjacent to 89A from the State.
	Vice Mayor Harvey encouraged the Council to start small with this, as the prior Council had envisionea possibly just putting it into place in the lower parking lot.
	Councilmember Dillenberg commented that "Jerome is in a critical state right now," and "we just can keep putting this off." He asked what "Plan B" would entail if paid parking is not enacted, and said tha we could come up with a plan where our citizens would not have to pay. "I have no problem starting small," he said, "but we have to do something."
	Councilmember Moore agreed, and suggested that we start small.
	Mayor Barber spoke about one of the kiosk vendors and the costs involved.
	Ms. Gallagher noted that the paid parking is unpopular with many, and that one issue with parking donations is the logistics around the collection of the cash. She suggested a compromise as a way to start somewhere: that the Town purchase two kiosks for the Middle Park lot using funds already set asid in this year's budget, and set them up as receptacles for donations.
	Councilmember Worth commented that the Town could obtain vintage-look parking meters that coul be programmed to accept credit card donations in fixed amounts, and that local artists could be engaged to paint them.
	The Council further discussed in detail all aspects of kiosks and their locations. 9:20 (28:30) Mr. Savage, a resident, stated that if we are accepting donations rather than requiring pai parking, it should not be a problem with ADOT, and he recommended doing this "everywhere we are able to," rather than just in one lot.
	9:22 (30:49) Eric Jurisin, a business owner, spoke about figures quoted for revenues in Flagstaff and Sedona, and noted that they have more spaces than Jerome would. He agreed that we could start small, and talked about installing kiosks near the "rock star" parking places (prime locations). He also mentioned putting in a walking lane for pedestrians.
	9:25 (33:47) Suzy Mound, a resident, said that people that live in the Verde Valley and work in Jerome are concerned about having to pay for parking. She spoke about her observations as someone her works outside on the street. If people are circling in order to find a free parking space, she said, it could increase traffic on our streets. She added that she feels parking at the 300 Level should remain free, an suggested that the town provide a shuttle service for employees parking there.
	It was discussed and agreed that further information is needed:
	 We need to know what we own along Main Street, and what ADOT owns. Ms. Moore noted that there were once buildings on the side of the street across from the Main Street shops, so that area might still be under the ownership of the Town. We need to know if ADOT will or will not allow paid parking in its right-of-way. The consultant who addressed the parking kiosk work force and suggested that he be engaged to provide a turnkey operation will be asked to attend the May Council meeting to provide more information.
	Mayor Barber asked for a recommendation from staff.
	Ms. Gallagher repeated what she suggested earlier – to purchase kiosks now, install them in the middle parking lot and use them not for paid parking but to accept credit card donations. It could be expanded from there.
	Councilmember Worth recommended that we implement a limited donation-based system in the "root star" parking areas and the Middle parking lot, and Council agreed. Staff was directed to obtain the additional information, and Councilmember Worth will continue her
	discussions with a vendor that could provide less expensive equipment so that we can arrange for a donation-based trial run as discussed.
	At this time, the Town Manager requested that Item #10B be addressed, as attorneys from the Prescott Law Group were present and needed to leave soon. Council addressed that item at this time, but it is reflected in the minutes in the order originally agendized.

(= (= 0)	ITEM #9D: FILM PERMIT – STUDENT FILM									
(56:13)	Council may review and determine the appropriate permit fee for a short student film to be filmed in Jero May and June.									
	Councilmember Worth explained in great detail about this application and recommended its appro She noted that Council needs to determine an appropriate fee									
	Council discussed and decided that the daily fee (which would range from zero to \$7,500, depending on the type of production) would be waived, and that the \$100.00 application fee would stand.									
	Councilmember Moore mentioned that filming in public right of ways cannot impede traffic and ask who would oversee this.									
	Ms. Gallagher replied that the police department is always informed, and if a special officer is need to be on duty, then the applicant would be charged for that. The Chief of Police will designate whe he can park.									
	Mayor Barber asked about a certificate of insurance and after discussion it was thought that the sch might be able to provide that.									
	A motion was made and seconded.									
	10:00 (1:07:26) John Bartell spoke from the audience to say he doesn't feel that the fee and insurance are necessary. He believes that Council is going way overboard.									
	Councilmember Worth explained in detail the necessity of the \$100 fee.									
	10:04(1:11:23) John Bartell continued speaking from the audience and asked about the size of the crew.									
	Crew. Councilmember Worth replied that it will be a full cast and crew, and she assumes at least eight to ten people.									
	Councilmember Moore explained that we have had situations in the past and it can be a nuisance to the Town.									
	10:05 (1:12:57) Mansel Mathews spoke from the audience to say that we could require film permits for drones. Someone pointed out that drones are not allowed in Jerome.									
	Vice Mayor Harvey called a point-of-order.									
	Mayor Barber called the question and the motion passed unanimously. Motion to Approve the Film Permit for an application fee of \$100 and no daily fee, with the understanding that all requirements listed on the permit application will be adhered									
	Motion to Approve the Film Permit for an application fee of \$100 and no daily fee, with the understanding that all requirements listed on the permit application will be adhere to, that permission will be obtained from business owners if the sidewalk in front of the business may be impeded, that the applicant will discuss any public safety needs with
