REQUEST FOR EXTENSION OF A BUILDING PERMIT

Building codes adopted by the Town of Jerome allow an extension on a building permit as long as there is a request for an extension. The extension shall be in writing prior to permit expiration and with justifiable cause demonstrated. The extension, if granted, can be for a period of up to 180 days (6 months).

An approved inspection is required prior to the end of the extension period. Failure to obtain a required inspection and approval before the end of the extension period will result in the permit being expired without further notice to the applicant.

An extension does not release the permittee from obtaining required inspections and no work that requires an inspection is to be covered up. Permits may not be extended more than once. In some instances, an 'extension inspection' will need to be performed to detail the work performed to date. If this is required, you will be contacted to arrange a date for inspection.

PLEASE NOTE: Submittal of this application does not grant an extension. This application will be returned to you within 2 weeks from submittal with the determination of this division entered on the back of this form.
